1 Base shelf, black	IS-SW-08	IS-SW-08
2 Shelf bracket	IS-SW-10	IS-SW-10
1 Top shelf, white	IS-SW-09	IS-SW-09
4 Corner trims, 823 mm	IS-823-CT	IS-823-CT
1 Kicks & Hangers	IS-800-KH	IS-800-KH

### Accessories

#### Shelf bracket

303mm x 153mm

Item IS-SWB-10

#### Shelf, grey

700x250mm / 27.5x10.1"

Item IS-SWB-05

#### Shelf, grey

700x250mm / 27.5x10.1"

Item IS-SWB-06

**1** First determine the desired height for the bottom shelf. Install the stop screws on the base posts so that the top edge of the stop screw is 100mm/4.1 inches below desired shelf height.

**2** Build the bottom housing of the showcase by connecting two 800mm/31.5" and two 400mm/15.7" standard beams above the stop screws on the base posts.

**3** Slide the rear panel in place, from the top, and attach the shelf brackets on the bottom slot in the slatwall.

**4** Insert the two side panels and the bottom shelf. Raise the front beam until it touches the bottom of the shelf.

**5** Attach the four extension posts and the special 400 and 900 mm beams.

**6** Slide in the top panels

**7** Attach the four top posts, one 800 mm beam across the back, and two 400 mm beams on the sides at the top of the panels.

**8** Mount the first 800 mm beam across the front, with top of beam even with bottom edge of the center slot in the side beams.

**9** Slide in the top shelf in the track of the back side 900 mm beam.

**10** This completes the Showcase.
